"No More Dreamlands"

The Washington Times-Herald recently ran a long article on the Tennessee Valley Authority. It pointed out that TVA can produce favorable financial reports because it can charge off tremendous sums to flood control and navigation—and because it allots only about 9 per cent of its income to states and counties in lieu of taxes, whereas private electric utilities pay out some 22 per cent of all their revenues in taxes.

Then the paper said, "The new Republican Congress is not committed to socialism and it is looking for ways to reduce taxes. One of the first places to look is the TVA. All of its power plants should be sold as soon as possible to private industry, a step that would reduce the national debt by about \$1,000,000,000. Pending completion of the sale, TVA power rates should be fixed according to realistic accounting methods and all revenue from the enterprises should be turned over to the Treasury. The taxpayers want no more dreamlands."

This is squarely in line with the fast-growing idea that the government should get out of all commercial business. There could be no better way to reduce the national debt, to balance the budget, and to reduce taxes. Nothing would be lost—regulated private enterprise would supply us with all the services in abundance, and pay heavy taxes for the privilege of doing so. And most important of all, we'd show that we aren't just paying lip-service to the cause of freedom—we'd be practicing what we preach.

"... the so-called excess profits tax is a destructive tax, dishonestly named. It is not, as its name implies, a tax on excessive profits. It is an excessive tax upon normal profits, on business efficiency, on industrial growth, and on public service." Benjamin F. Fairless.

Pontiac

A GENERAL MOTORS MASTERPIECE

A Very Proud Car—At A Very Modest Price!

According to Webster, one of the important meanings of the word proud is this: "Worthy of admiration; deserving praise."

That definition fits the 1953 Pontiac like a glove. Pontiac's distinctive Silver-Streak beauty is certainly worthy of admiration—and gets plenty of it everywhere. And when you sit behind the wheel and feel the effortless surge from Pontiac's famous power plant you'll know that you're driving a mighty proud performer.

As a matter of fact, the only modest thing about a Pontiac is its price—for this wonderful car which gives you the engineering quality and the best features of the costliest cars is priced just above the very lowest!

And when you're figuring price, be sure to remember Pontiac's remarkable resale value—the sure test of long-lasting quality. Why not come in and see how easily you, too, can become the proud owner of a new Pontiac?

For her wedding the bride chose a grey suit with which she wore a Navy blue straw hat and Navy accessories. Her corsage was yellow roses and white stephanotis. Mrs. Schaffler wore a dark textured suit and her corsage was pink roses and white carnations.

Following the ceremony a lovely supper was served with the table being centered with a three-tiered all white wedding cake decorated

Bits O' Talk

The 8th grade science class of Frederic High School know a lot more about the processing of dairy products than they did before their tour of Hunter's AuSable Dairy on April 20th. 21 pupils in all made the tour, observing the weighing and receiving of milk

with white roses and topped with a bride and groom.

Mr. and Mrs. Lovasen left on a honeymoon trip, and will make their home in Bismarck, N. D., where the groom has a position with Capital Airlines.

from the farms in Crawford County. Then there was the pasteurization, homogenizing and bottling of the milk. Mr. Les Hunter explained the process used in making ice cream and cottage cheese to the pupils, and before the group left they were given an ice cream treat.

Pfc. Robert Horning, oldest son of Mr. and Mrs. Oscar Horning arrived home April 19th from Denver, Colo. Robert had been confined in the Fitzsimmons Hospital in Denver since last June. He left for service in February, 1951 and was with the engineering corps of the Army. Although he has not yet received his discharge papers, he will not be returning to service. However he is much improved in health.

Mrs. Wendell Glester and two daughters of Clatskanie, Ore., visited Mr. and Mrs. William Hunter over the week end.

Mrs. Homer Annis returned last week from a two weeks trip. She had joined her daughter and husband, Mr. and Mrs. Jim Send in Flint and they drove to North Carolina and then to N. Charles, Pa., where they visited her daughter, Mrs. Cecil Linderman.

Les Hunter, Joe Bielski and Walter SanCartier of Hunter's AuSable Dairy attended a sales talk meeting and dinner of the Dairyland Creamery Distributors of Valley Lee milk at the Hotel DuRoi in Clare on April 21st.

Mrs. A. M. Lewis accompanied by her sister, Mrs. William McMahon of Newberry left last week end for Detroit where the latter is to take treatments at Harper Hospital. They plan to return to Grayling about the middle of May.

Mr. and Mrs. Charles Tinker attended the wedding of the former's nephew, Gene Tinker and Miss Nancy Smith of Kalkaska, that occurred on Tuesday evening, April 21st at the People's Church there. The groom and his brother, who was best man, were both home on leave from the Navy.

Mr. and Mrs. Charles Tinker and children, Kay, Martin and Danny visited Mrs. Tinker's brother, Alger Priest and family in Manvela Sunday.

Mr. and Mrs. John Brady have returned from Detroit, where they visited their children for three weeks. Richard, Jerome and Sally accompanied them home and spent the week end.

Harold Rasmussen is the new salesman at the Rasmussen Lumber Co.

Members of the Eimer Rasmussen family were all at home Sunday for a family gathering and to bid bon voyage to their son and brother Bob, who expects to sail the forepart of May for Korea. Mr. and Mrs. Nels Kren and children of Saginaw, Mr. and Mrs. Donald Orr and children of Traverse City, Miss Shirley Rasmussen of Washington, D. C., Earl of Mt. Pleasant and Ralph of Ypsilanti came home for the occasion.

Jack Richardson, son of Mr. and Mrs. Carl Richardson was among the 640 University of Michigan students selected to be recognized at the 30th annual Honors Convocation in Hill Auditorium on the campus last Friday morning. Jack was honored with the Hopwood summer award in poetry.

The City fire department made a couple of runs on Thursday, one at 9:30, a grass fire near the home of Clarence Dittich. Then in the afternoon with a stiff wind blowing it was feared the fire at the dump might get out of control, so a run was made there to quiet the situation.

Mrs. Fred Konneker arrived Friday morning from Puente, California, to help care for her mother Mrs. Henry Bousson, who is in ill health.

Tommy Benware was seven years old on April 20th and had 12 friends as his guests after school that day. In a couple of contests Ralph Hetsel and Terry Wakeley were the winners. There was a pretty birthday cake with seven candles and other good things to eat, and favors were pink baskets of candy and a toy balloon for each guest. One of the biggest surprises he received was a new cousin born that day, and who was named Tommy after him—Thomas Irwin Ray.

Miss Lucille Kiley spent the week end visiting at her home in

Big Rapids.

Mr. and Mrs. George Weaver of Versailles, Ohio, spent the week end at their cottage at Lake Margrethe, coming to visit the former's brother Don Weaver, who has been a patient at Mercy Hospital for several weeks. Don, however is improving which will be good news to his friends.

Mrs. Eileen Pond is in charge of the Dairy Bar at the AuSable Dairy.

Frank X. Goulet, age 65, the son of the late Mr. and Mrs. Clivius Goulet, former Grayling residents, passed away recently in Los Angeles, Calif. Mr. Goulet lived in Grayling when a boy and will be remembered by many. The family moved west many years ago where Frank attended University of Southern California and the University of California. He had been principal of the Gardena school there for 15 years. Surviving is his widow, a son Robert and two brothers, George and Elmer.

The Grayling 4-H Club will hold its annual Achievement Night at 7:30 on Wednesday night, May 6. The students work on their yearly projects will be on display in the gym and plans are going ahead for a program.

\$2,000,000 in new Platforming and refining facilities put more pep into the new high-octane POWER-FLIGHT, the most powerful gasoline you can buy.

In Roosevelt Oil and Refining Corporation's new \$2,000,000 refinery, selected crudes are refined and then "reformed" by a process known as Platforming into high-octane POWER-FLIGHT. Platforming is a catalytic reforming process in which the precious metal, platinum, is used to produce a reaction that greatly improves the octane rating of gasoline. The new high-octane POWER-FLIGHT is one of the few gasolines produced in Michigan by this method. That's one reason why it gives you faster pick-up, more pep and power and more miles per gallon than any other gasoline.

The new high-octane POWER-FLIGHT comes to you fresh from refineries in Mt. Pleasant—right here in Michigan—and it goes to work in your car while its power-packed energy is at its peak. Gasoline shipped from far-away refineries sometimes loses its energy and wastes away its precious power in the long journey to Michigan. That's another reason why POWER-FLIGHT is the finest, most powerful gasoline you can buy.

From their large and constant supply of crude oil, Roosevelt Oil and Refining Corporation selects only the very finest crudes for the new high-octane POWER-FLIGHT gasoline. That's a third reason why it's the best gasoline you can buy. Get a tankful of fresh, powerful, high quality POWER-FLIGHT today. Fill up at the sign of the screaming rocket.

Although most farms are located beyond city gas mains, they can now have their own "backyard gas well" to supply fuel for a wide variety of important jobs. Liquefied petroleum gas is delivered to the central supply system. Stored as a liquid, the fuel changes to its gaseous state when used. Large amounts of LP-Gas (aboutane, propane, bottled or tank gas) can be stocked because one volume of liquid expands to about 270 volumes of gas. The fuel is also used by millions of farm families to operate modern household appliances, including automatic ranges, water heaters, clothes dryers, incinerators, refrigerators and heating plants.

HOSPITAL BILL WITHIN THE YEAR!
ARE YOU PROTECTED?

Your doctor is your friend in need in more ways than one.

You know him of course, as an expert on getting you well and keeping you that way. Less known, though perhaps not less important is the role he plays in helping you protect your family against the cost of illness or accident.

Fourteen years ago, together with hospital officials, business men and labor leaders, Michigan doctors helped start the Blue Cross - Blue Shield *non-profit* organizations to bring modern medical science within the financial reach of everyone.

Since then, Blue Cross - Blue Shield have paid out over 392 million dollars in benefits. With nearly 3 million members, Blue Cross-Blue Shield is Michigan's most widely used health-care protection.

**Blue Cross - Blue Shield pay more . . . for more hospital

RESOLUTION

Whereas, for upwards of 20 years Sydney A. Dyer of South Branch Township served as Supervisor thereof, and for many years he served as chairman of the board of Supervisors of Crawford County, and

Whereas, during all of his many years of service he proved himself to be an able, conscientious and honorable official, with a keen grasp of administrative procedure and county government, and

Whereas, during said years he had the best interest and welfare of the people of Crawford County always in mind, and

Whereas, his friendly personality and tactful manner and his great knowledge of administrative procedure and county government is and will be sorely missed, now that he is no longer serving as supervisor, and

Whereas, the members of this board feel that some thanks ought to be given and some recognition made for the years of service given by the said Synbney A. Dyer to our county.

Now, Therefore, Be It Resolved, that the sincere thanks of this board, representing all of the people of Crawford County, be and they are hereby extended to Sydney A. Dyer for his many years of faithful and excellent service to the County, and

Be It Further Resolved, that we deeply regret his retirement from the office of supervisor, feeling as

635-Mile New Pipeline Will Be Built And In Operation During Present Year

The Lakehead Pipe Line Company, Inc., which, in cooperation with Inter-provincial Pipe Line Co., transport Alberta crude oil from Edmonton to Superior, Wisconsin, will have a \$74,000,000 extension, over a 635 mile route constructed this summer from Superior direct to Port Huron and Sarnia, Ontario, T. S. Johnson, President of the Lakeside Pipe Line Company, Inc., announced today, "Big Inch" pipe, 30 inches in diameter, will be used.

The 635 mile route will extend from Superior in an easterly direction, across Michigan's Upper Peninsula. From there it will run south, across the Straits of Mack-

inac, proceed in a southeasterly direction to Port Huron and Sarnia, where it will cross the St. Clair River. It will cross the north east corner of Crawford County.

While plans for the Lakehead Extension have been under way for some months, the company received final authorization to proceed with the actual construction of the line when Governor G. Mennen Williams signed a bill permitting construction across the state lands on March 28th, and the last of the necessary permits from other Michigan regulatory bodies were secured on April 1st. The completion of this extension will enable Lakehead to deliver crude oil the year around at a saving in transportation costs, direct to markets in Minnesota, Wisconsin, Michigan and adjacent areas within the United States, as well as to Sarnia, Ontario, Mr. Johnson pointed out.

Lakeside Pipe Line Company, Inc., has its headquarters at Superior, Wisconsin. The original pipeline system from Edmonton, Alberta to Superior—a distance of 1,180 miles—cost \$90,000,000. When completed and placed in operation during the fall of 1950 it constituted one of the world's major pipelines.

To coordinate the extension project, Lakeside Pipe Line Company, Inc., has designated Bechtel Corporation of San Francisco as its agent. As such, Bechtel Corporation will act as the owner's agent and representative on all matters pertaining to the management and construction of the Lakehead Extension. Bechtel project offices have been established at 124 South Washington Avenue, Saginaw, Michigan.

Contracts for actual construction of the pipeline and water crossing currently are being entered into. Barring unforeseen developments, construction should be completed and the pipeline in operation on or before December 1, 1953.

The extension will be constructed of 30 inch high test, high pressure, all-welded steel pipe. It is designed so that with one pump station at Superior, its initial capacity will be 120,000 barrels per day. By the construction of five additional pump stations its ultimate capacity can be increased to approximately 300,000 barrels per day.

When completed late this fall, Lakehead will be a part of the world's longest crude oil pipeline. The system will be 1,665 miles long and will span half the North American continent.

The main line pipe will vary in thickness up to a half inch, while the pipe used under the Straits will be about 1/2 of an inch. Most of the joints will be 40 feet long and each will weigh over one ton each. Approximately 150,000 tons of steel, or enough to construct about 100,000 autos, will be required for the project.

About 5,000 railroad freight cars will be needed to transport the pipe from the mills to over 100 sidings along the route where the pipe will be stocked prior to being used.

When the pipe is laid, bulldozers and drag-lines will replace the earth so efficiently, according to company spokesmen, that the right-of-way will be restored to its original state, and farming may be resumed at once on the surface.

Given favorable weather and other suitable conditions, more than one mile of pipe can be welded per day by each pipe group.

The pipeline will be buried throughout its 635 mile length so that the top is 26 inches below the surface of the ground. Thus farming can be carried on as usual after the pipe is in place.

The length of life of pipe is not known, but pipe laid in 1907 is still functioning efficiently.

The three water crossings present special problems. Their construction has been contracted separately to three organizations.

The principal and most difficult is the 21,000 foot crossing of the Straits of Mackinac from near St. Ignace to a point near Mackinaw City. The crossing is an exceptionally long under-water crossing. In addition, for several hundred feet it will be laid at a depth of almost 230 feet. This crossing will represent one of the deepest ever constructed anywhere in the world.

The other two water crossings are of the Saginaw River near Bay City and the St. Clair River south of Port Huron. Both of these are approximately 2,500 ft. in length. On all three of these crossings, pipe almost twice as thick as standard will be used.

The flow of crude oil can be shut off at any time if necessary. Safety valves will be installed along the route and before all major water crossings. These valves stand about nine feet in height and are welded into the pipeline. They weigh 9,000 pounds each.

To ensure maximum safety prior to the pipeline being filled with crude oil and placed in service, the entire line will be tested.

Small Crowd At P. T. A. Party

The P. T. A. social party given last Friday night for the benefit of the Cub Scout program was not too well attended. Those present however had a fine time. The merchants of Grayling were most generous in the donation of prizes for the affair and the association wishes to extend their sincere thanks for their fine co-operation. Mrs. Erwin Wales who was in charge of solicitations announced that she was not refused by a single business place called upon.

The committee also wishes to thank those who donated prizes for the lunch that followed the games. Others working on the party committee were Mrs. Glen Fenton, general chairman; Harley Russell, Alvin Moore, Wayne Ewalt, Arthur Allen, Joseph Stripe, Wesley LaGrow, Mrs. Alfred Sorenson, Mrs. J. F. Cook, Mrs. Wesley LaGrow and Mrs. Tom Robertson.

Following is a list of the merchants who donated prizes: Dick's Speedway, Clough's Spt. Goods, Meech's North End Grocery, Martin's Hi-Speed, Kennedy's Flower Shop, Black and White Grocery, Hunter's AuSable Dairy, E. R. Burns, Kraus 5c to \$1.00 Store, Sales, Dawsons, Tip Top Togs, Davis Jewelry, Weaver's Bottle Gas, Burrows Market, Grayling Gift Shop, Ron's Hardware, A. & P. Tea Co., Mac's Drug Store, Peterson's Hardware, Sorenson's Spt. Goods, Hoerl's Decorating Shop, Baringers, Grayling Mercantile Co., B-C-D, Long's Market, Hanson's Chevrolet Garage, Sorenson's Grocery, Tufts Dist. Co., Tim's Beauty Shop, Gould Cleaners, Parsons & Lamm, Vince's Phillips Market, Mosher's Service, Grayling Gulf, Callahan's Service, Rasmussen Lumber Co., Grayling Laundry, Welsh's Ford Service, Ted Wheeler's Fuller Brush Products, Mrs. Erwin Wales' Watkins Products, "Dad" Hanson's and Olsons.

CARD OF THANKS

I wish to express my appreciation for the many words of kindness, floral tributes and visits bestowed upon me during my illness at the hospital and also convey my thanks to the doctors, nurses and sisters for their exceptionally fine service.

Mrs. Emma MacAuley.

Success car

of the season!

Topping a traditional Ford trend, the 1953 Ford today leads all other cars in bringing you the kind of car you've always wanted for the kind of money you can afford to pay. It's America's "Worth More" car... worth more when you buy it, worth more when you sell it.

NEVER BEFORE has a car enjoyed such wide acclaim as Ford during the past few years. And this year, with a hull-tight Crestmark Body—that's the style-setter, a new-ride—that's unbelievably smooth, a choice of high-compression V-8 and Six that's the envy of its field and a total of 41 "Worth More" features,

the 1953 Ford steps even further out front to become the New Standard of the American Road. Ford keeps its value better than any other car, too. A check of used car dealers and owners will prove it. So join the swing to Ford. Take a Test Drive today.

All across America, the swing is to

MOBILGAS ECONOMY RUN FLASH!

FORD BEATS ALL IN ECONOMY!

MILEAGE MAKER "6" WINS SWEEPSTAKES!

Score a blazing victory for Ford's dollar-saving gas economy! Ford's high-compression Mileage Maker "6" with Overdrive beat every car entered in this year's Mobilgas Economy Run, regardless of size or weight, to sweep the sweepstakes! Ford's winning average was 56.70 ton-miles per gallon.* And Ford's high-compression 110-h.p. Strato-Star V-8 with Overdrive was right up there in economy, too, with a record of 48.65 ton-miles per gallon!

The winning Ford was a regular production car, just like thousands of other '53 Fords you see on the road today. This 1,206-mile trip from Los Angeles to Sun Valley covered all types of driving conditions. The route threaded through city traffic, where stop-and-go driving tests an engine's fuel economy under the toughest conditions... and out along the highways of four western states.

The Ford Mileage Maker "6" took all this in stride, maintaining a speed above the required 44.25 m.p.h. minimum, to finish 1st in the sweepstakes! What better proof is there that Ford is the thriftest car of all? What better way to show why Ford is worth more when you buy it... worth more when you sell it!
